K&K ADVOCATES ADVISED PEDULILINDUNGI APP

To support the Government of Republic of Indonesia's effort in tackling Covid-19 pandemic, K&K Advocates assisted the operator of a nation-wide contact tracing application PeduliLindungi operated under cooperation with Indonesian Ministry of Communication and Informatics. Our assistance is extended to ensure the appropriate protection to Pedulilindungi's intellectual property, and its privacy compliance.

Pedulilindungi app plays an important role to support Government's effort in preventing further spread of covid-19 in Indonesia. The app is purposed to trace, fence, and advise the public on their potential exposure to covid-19 by collecting certain information from its users.

Our team was led by partner Justi Kusumah and Danny Kobrata with support from associates Siti Mariam Nabila and Bhredipta Socarana.
